Professional Summary

AI enthusiast and product-focused builder with hands-on experience designing Generative AI systems, intelligent automation workflows, and multi-modal creative assets. Highly creative Generative AI Specialist deeply focused on visual design, brand storytelling, and producing high-impact marketing assets. Proven ability to leverage frontier multi-modal models to create compelling social media content, generate dynamic AI videos, and design high-fidelity visual assets. Passionate about rapidly transforming ideas into deployable products and building strong brand identities through cutting-edge marketing creatives.

Education

- Current **B.Tech in Computer Science Engineering**, *Jadavpur University*, Kolkata
First Year Student.
- Completed **Class XII (CBSE) – 89%**, *Beachwood School*, Durgapur
- Completed **Class X (ICSE) – 95.2%**, *St. Michael's School*, Durgapur

Technical & Creative Skills

- AI & LLM Eng. Prompt Engineering, Generative AI Apps, Conversational AI, AI Assistants, Agentic AI, Multi-Model AI, MCP, LLM Product Dev, Workflow Orchestration
- Gen AI & Video OpenAI, Claude, Gemini, Midjourney, Stable Diffusion, DALL-E 3, Runway Gen-2, CapCut, MS Video Editor
- Creative AI Image & Video Gen, Marketing Creatives, Visual Storytelling, Brand Frameworks, Marketing Copywriting
- Programming Python, JavaScript, HTML5, CSS3, Git, GitHub, React (Learning), Next.js (Learning), Supabase (Learning)
- Product & UX Product Validation, Systems Thinking, User Journey Design, UI/UX Design, Rapid Prototyping, Product Architecture
- Automation RAG, Health AI, Full-Stack AI Apps, Workflow Automation, Web Scraping, Information Extraction, AI Pipelines

Featured Projects & Creative Portfolio

- Personal Project **AI Fitness & Wellness Tracker**, *AI Health Application*
- Designed an AI-powered fitness and wellness platform helping users track health metrics and receive personalized insights.
 - Developed structured health-tracking workflows to transform user inputs into actionable insights, including tracking post-run recovery nutrition.
 - Built conversational user experiences for natural interaction with health info and contextual wellness recommendations.

- Lead Designer **Creative AI Portfolio & Visual Assets, *Visual Design***
 - **Midjourney Projects & AI Posters:** Designed high-resolution conceptual posters and synthetic art assets, correcting structural anomalies for realistic proportions.
 - **Marketing Creatives:** Developed cohesive visual brand identities with retro/vintage aesthetics for highly optimized digital assets.
 - **AI Video Generation:** Orchestrated multi-modal workflows to translate static UI elements into dynamic, short-form AI video content tailored for social media.
- Personal Project **PDF OS — AI-Powered Document Operating System, *Lead AI Designer & Strategist***
 - Conceptualized an advanced web document OS fusing Canva-like design capabilities with automated visual layout rendering.
 - Executed visual UI mockups highlighting clean typography and minimalist digital workspaces optimized for modern content creation.
- Personal Project **AI News Intelligence & Social Media Engine, *Automation Engineer***
 - Built an automated orchestration engine that curates emerging AI news and produces premium technical copy for social media.
 - Designed advanced prompt-engineering workflows that transform unstructured information into analytical briefings.

Experience & Capabilities

- Product Dev Product Ideation, Product Validation, Feature Planning, User Research Thinking, Systems Design
- Prompt Eng. Multi-step Prompt Workflows, AI Reasoning Frameworks, Structured Prompt Design, Content Generation Pipelines
- Automation Workflow Orchestration, Data Collection Systems, Content Intelligence Engines, AI Productivity Systems
- UX User Journey Mapping, UI/UX Prototyping, User-Centric Design, Product Optimization
